BEFORE THE
FEDERAL COMMUNICATIONS COMMISSION
WASHINGTON, D.C. 20554

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

In the Matter of)
)
Local Exchange Carriers' Rates,) CC Docket No. 93-162
Terms and Conditions for)
Expanded Interconnection)
for Special Access)

ERRATUM

Southwestern Bell Telephone Company (SWBT) hereby files this erratum to its Direct Case, filed August 20, 1993. Page 47 of SWBT's Direct Case incorrectly refers to an "Expanded Interconnection Technical Publication for Collocation with SWBT, Issue 1, June 1993, Section 4.B.2.4" as Appendix 4. This Appendix, which should have been designated "Appendix 12," was also inadvertently not attached.

SWBT respectfully requests that the corrected page 47, attached hereto, replace page 47 of SWBT's Direct Case, and that the new Appendix 12, also attached hereto, be added to the Direct Case.

Respectfully submitted,

SOUTHWESTERN BELL TELEPHONE COMPANY

By

Thomas A. Pajda

No. of Copies rec'd 046
List A B C D E

SWBT has not included specific tariff wording on LOA procedures in the past and has no reason to do so for expanded interconnection.

3. Should LEC Tariffs State That They Will Bill Charges For the Special Access Cross-Connect Rate Elements and Subtending End-Link Services to Third Parties Specified by the Customers When Ordering the Services.⁷⁸

This issue is covered in subsection N.2, supra.

0. Are the LEC Provisions Regarding Inspections of Interconnectors Space and Facilities Reasonable?⁷⁹
 1. LECs are to Explain Their Provisions Governing Inspection of Interconnectors' Space and Facilities, Including Who Must Pay For Such Inspections.⁸⁰

As discussed in the Designation Order, Section 25.2(B)(1)(g) of SWBT's Expanded Interconnection tariff provides for inspections of the interconnector's partitioned space. The interconnector is not required to pay for such inspections. The only instance in which any additional costs would be imposed on the interconnector is if any violation (safety or network) is found and the interconnector must incur costs to remedy the situation. Additional provisions regarding inspection of the interconnector's partitioned space are contained in the Expanded Interconnection Technical Publication for Collocation with SWBT, Issue 1, June 1993, Section 4.B.2.4 (attached as Appendix 12). This treatment is also consistent with the treatment of outside vendor installations

⁷⁸ Designation Order at p. 40.

⁷⁹ Designation Order at p. 40.

⁸⁰ Designation Order at p. 42.

4.B.2 PHYSICAL COLLOCATION

EARTHQUAKE ZONE BRACING

4.B.2.1 SWBT's territory consists of four (4) earthquake zones (0-3). SWBT will determine which seismic zone is applicable for an interconnector's equipment. Generally, two metallic anchors are required in the base of seven foot (7') frames and cabinets. Top supporting is not required unless the equipment manufacturers' specifications call for this arrangement. These specifications would normally be consulted to determine which earthquake bracing is required. This will depend on the seismic zone in which the equipment will be deployed. For detailed information on earthquake and office vibration, refer to Bellcore Network Equipment Building System (NEBS) Technical Reference Document TR-NWT-000063.

EQUIPMENT INSTALLATION

4.B.2.2 The Point of Termination (POT) or Network Interface (NI) will be at the SWBT cable termination side of the POT frame (see Exhibit 3.A.3.5-1).

4.B.2.3 The interconnector will be responsible for the following:

- all cross-connections on the POT frame
- installation of its own equipment

4.B.2.4 SWBT reserves the right to inspect the installation of all equipment in the interconnector's partitioned space. Once installation has been completed, a joint job installation/acceptance will be performed by the interconnector or its agent and SWBT. A report of any findings will be presented to the interconnector or its agent for correction. It will be at the discretion of the job evaluator if a follow-up inspection is necessary. The interconnector's equipment will not be placed in service until all findings have been corrected to the satisfaction of the person performing the inspection.

4.B.2.5 All DS1 and DS3 services will be installed and maintained in accordance with SWBT TP76625.

4.B.2.6 Unless there are circumstances beyond its control, SWBT will notify the interconnector that the partitioned space is ready for occupancy within 150 days after receipt of the interconnector's written acceptance of the quoted charges.

WORK STOPPAGES

4.B.2.7 In the event of a work stoppage, provisions will be made for the interconnector's vendors, agents and contractors to have access to the central office as usual. Entrances will be marked accordingly.

COLLOCATION AREA ACCESS

4.B.2.8 Where it is not possible to provide the interconnector with secure access to the collocation area, a SWBT security escort will be required.

CERTIFICATE OF SERVICE

I, Joseph Meier, hereby certify that the foregoing "Erratum", in CC Docket No. 93-162, has been served this 27th day of August, 1993 to the Parties of Record.
